1. The Sam has approved the manufacture, at the morch werke, of 300 trucks with three-ton trailers. Work is to be completed by January 1947.

2. At Elichsische Aufbauwerke, the former Auto-Union employs about 5,000 workmen in the ten plants. At present spare parts, recently unobtainable in the market, are being manufactured. Three shifts are worked on some of the machines, of which an insufficient number are available. Small delivery vans are to be built soon, and it is hoped that permission for the manufacture of passenger cars will be obtained.

3. The former Landerer Lorks (which forms part of the Sächsische Lorke at present) is engaged principally in the repair of typewriters and culculating machines. The position of raw materials is not satisfactory. There were formerly 8,000 people employed; now there are 800.
